

THE CONSTRUCTION SPECIFICATIONS INSTITUTE NORTHEAST REGION

ADMINISTRATIVE REFERENCES DATED – AUGUST 6, 2005

ADOPTED
AUGUST 27, 2005
REVISED: April 22, 2006

History -

The Northeast Region Administrative Guide was originally issued in January 1978. An updated draft revision was informally issued in August 1980 and formally issued in March 1981. Amendments to the 1981 version were adopted in 1982, 1983 and 1988.

In 1994, an Ad Hoc subcommittee of the Planning Committee was formed to revise the Administrative Guide to reflect the 1993 Incorporation of the Region and the changes made necessary by the Bylaws of the Incorporated Region. Most of the 1994 revision was posted to the Region Website.

In 2002-2003, a Task Team did some work on an update of the Region Administrative References but the work was never completed. In July 2005, a new Task Team was appointed that completely revised the previous Region Administrative References. Since that time, Revisions have been made on the dates shown.

The purpose of this document is to provide a basis for the administration of the affairs of the Northeast Region, CSI and to assist in planning and conducting Region oriented activities for the general betterment and well being of the Institute, Region and Chapters.
