2. Status of Current Programs: The Chapter is booked through the end of this FY.
3. Problem areas: The Chapter struggles with membership growth, recruiting younger members and leaders. Chapter must address organizational challenges imposed by Institute agreement.
4. Success stories: Chapter is working to return to In-Person meetings.
5. Changes to Chapter Membership since last report: Increased to 32 due to a few new members and to Institute membership re-alignment. We do think there may be some misreporting in the Institute's reporting.
